

**DON SLICK  
EMPLOYEE OF THE MONTH**

**NOVEMBER 2009**

I would like to nominate Fire Inspector, Don Slick, for the West Valley City Employee of the Month award. Don has recently taken over responsibility of our pub-ed program. He has worked tirelessly on our school program and handled all of the scheduling and manning responsibilities. He has also been asked by the State Fire Marshal's office to be their liaison to other departments in the state for the Public Education Association which is quite an honor for our department and West Valley City.

We have received calls from business owners stating what a great job Don has done at the extinguisher trainings and other prevention events. Don is able to do a great job with all pub-ed duties as well as a full schedule of inspections. He is always available to answer questions and to do follow-up inspections for our fire crews. Don also interacts with other city departments on projects concerning the prevention office. He projects a great attitude every day and represents the Prevention Division well.

I believe Don Slick would be a good choice for employee of the month.

Nominated by: Carl Andreasen
